Meg,

Please see email below and attached file of manuscript that was just accepted in Weed Technology.

Please forward this email and file to appropriate staff members for their consideration.

Thank you,

Tom Mueller
University of Tennessee

Dicamba Emissions under Field Conditions as Affected by Surface Condition
Weed Technology

Dear Dr. Mueller,

I am pleased to tell you that your work has now been accepted for publication in Weed Technology.

It was accepted on Sep 11, 2020

Weed Technology subscribers will have full access to your article when it is published on Cambridge Core. A read-only version will also be available that can be freely shared via the "Shared Link" button below the abstract of your published paper.

Weed Technology now publishes Accepted Manuscripts (AM) online immediately following acceptance, allowing authors to make their work available to read and cite much more quickly. The final submitted Word file of the manuscript with all figures and tables included will be used for the AM publication (supplementary materials are not included in the AM publication but will be added at final publication). The Accepted Manuscript will eventually be replaced with the final copy-edited and typeset Version of Record.

Thank you for submitting your work to this journal.

With kind regards

Jason K. Norsworthy
Editor
Weed Technology
